# Advanced Placement Biology

## STUDENT AGREEMENT/PARENTAL PERMISSION

ADVANCED PLACEMENT (AP) high school classes are regulated by National College Board Standards. These classes have **extensive** specific terminology and 1-2 hours of outside work a night which includes **independent study** where students are expected to apply critical principles. Because of the extensive material to cover, AP classes have an **aggressive schedule** making attendance crucial to maintaining discipline and success in the courses. AP classes have **pre-requisites which include entrance and summer requirements**. Summer requirements must be completed by the first day of school in September or the student **will be** withdrawn from the class.

My child and I have prayerfully considered his/her willingness to commit to the time, effort, and attitude needed to succeed in the intense, college-level nature of the Advanced Placement Biology course and he/she has my permission to enroll. ***I understand that my child is expected to complete the summer work and take the AP exam in the spring.***
